

SIZE: RISK DISCLOSURE

Last Updated: 28 June 2026

Please read this before you use Size. It summarizes key risks. It does not replace the [Terms of Service](#), which govern in full. By continuing, you confirm you have read and understood this disclosure.

Size is a skill-based game, not trading or investing. Trials and Lives are simulated. There is no real trading, no real market execution, and no real financial product. Words like "trade", "profit", and "balance" describe game features only. Simulated capital is owned by us, has no monetary value, and is not your money.

What you spend can be lost and is non-refundable. Keys and other Store items are fees for access. They are not deposits, not investments, and not insured. Once used, they are non-refundable except where the law requires otherwise.

You control your wallet. We cannot. Your wallet is non-custodial. You alone hold and control your keys and approve every transaction. We cannot access, move, freeze, or recover your assets, and we cannot restore your keys. If you lose your login credentials or recovery method, you may lose access to your assets permanently and irreversibly.

Crypto and smart contracts carry risk. Digital assets can be volatile and may lose all value. Blockchain transactions are irreversible. Smart contracts and networks can contain bugs or be exploited, fail, or be attacked. You use them at your own risk.

Payouts are earned by the rules, not guaranteed in every case. If a Life's value exceeds its starting equity, your share is set by the published Payout Schedule. Payouts depend on your following the rules. We may withhold or void a payout if you breach the Terms or engage in prohibited conduct.

We give no advice. Nothing on Size is financial, investment, legal, or tax advice, or a recommendation. Your decisions are your own.

You must be eligible. You must be at least 18 and of legal capacity, and you must not be located in, resident in, or a citizen or national of any restricted or sanctioned jurisdiction. Checking your eligibility and the legality of using Size where you are is your responsibility.

No regulated-service protection. Size is non-custodial and not a bank, broker, exchange, or investment service. You do not get deposit insurance, investor compensation, or the protections that apply to customers of regulated financial institutions. You are responsible for your own legal and tax compliance.

We can suspend or ban accounts. We may suspend, ban, or close any account at our discretion, including for prohibited conduct or to manage risk.

I acknowledge that I have read and understood this Risk Disclosure, that Size is a simulated skill-based game and not a financial or investment service, that amounts I spend may be lost and are generally non-refundable, that my wallet is non-custodial and my keys cannot be recovered, and that I meet the eligibility requirements. I agree to the Terms of Service.
